COMMERCE AND CANALS. TWO OPINIONS ON THE REPORTS OF

THE STATE COMMISSIONS. A. S. Hewitt Calls the Commerce Report a Mediocre Document-Favors Canal Improvement on a Large Scale-S. R. Callawny Says New York Gets Its Share of

Trade-Produce Exchange Takes Action. The Hon. Abram S. Hewitt and Samuel R. Callaway, President of the New York Central and Hudson River Railroad, made interesting Canai and Commerce commissions. Hewitt chaeterized the report of the Commerce Commission as a medicere document and praised the report of the Canal Commis-Mr. Callaway had no comment to make on the proposition to improve the canals, but he did have a few remarks to make on the report of the Commerce Commission. Mr. Hewitt said to a SUN reporter:

"I have not gone through the report of the Canal Commission as carefully as I intend to. but I am sufficiently familiar with it to say that I consider it a very excellent piece of work. The report is in line with the position I took on the canal question in a letter which I wrote some time ago and which was interpreted to mean that I was opposed to canal improvement. As a matter of fact, I am strongly in favor of improving the canals on a large scale, but I was opposed to the \$9,000,-000 canal, as it was called, because the spending of that amount of money would have resulted in no real good to the State. In my opinion, this State and city owe their present proud position almost entirely to the canals. Therefore, if the canals can be put in such shape as to enable the State and city to maintain that position the work ought unquestionably to be done. The report of the Canal Commission calls for the expenditure of about \$60,000.0. That is a large sum. But it is no more to-day than \$5,000,000 was when Clinton asked for that amount with which to

What do you think of the recommendation to place the cost of the improvements on the canal counties?" Mr. Hewitt was asked.

"I think it's a very dangerous proposition." was the reply. "I don't think that any public work should be paid for by a tax on particular sections of the State. This tax should be a general tax, its burden falling upon all sections of the State alike. Furthermore, the canals should not be free, unless they are forced to be in order to get the business. Tolls were charged on the present canals until it became a question practically of abandoning the tolls or abandoning the canals If it is possible to get the business, and I think it will be, with large barges and the freight less than one-half a cent a ton a mile, tolls should be charged sufficient to meet the cost of maintenance."

What do you think of that feature of the

"What do you think of that feature of the report of the Commerce Commission which accuses the mirroads for differentiating against the port of New York?"

"The report of the Commerce Commission is a very medicore document, "replied Mr. Hewitt." The mirroads, particularly the New York Central, can't afford to attempt to play with the interests of the people of the State. It is too beg an enterprise. But the fact remains that with a large cannal and freight rate less than one-half a cent aton a mile the percentage of exports from this port must increase. The other ports will have business, but New York's percentage will increase.

there, and the statistics certainly do not show an alarming increase."

All that Mr. Callaway would say in reference to the canals was this: "It is proposed to spend about \$60,000,000 on the canals. Allowing interest at 4 per cent on the amount invested, and allowing \$50,000 for operating expenses, the canals will cost in round numbers \$3,000,000 a year. This would amount to a charge of nearly three cents a bushel for all the grain now brought or likely to be brought to this port. The rate on the New York Central is two and a quarter cents a bushel from Buffalo to the ship's side in New York. Grain would be the principal commodity carried by the canal."

adopted by the Board of Managers of the Exchange yesterlay.

"Resolved, That the Produce Exchange invite other commercial bodies to join the Produce Exchange in tendering to Cov. Leosevelt a banquet at which the New York Commercial Commission are to be honored guests on account of their work for canal improvement."

E. T. Barrows, President of the Exchange, has appointed a committee of members to be called the Executive Committee on Banquet. The Canal Committee of the Produce Exchange will hold a meeting on Monday to plan a campaign of education in favor of an appropriation of \$60,000 to build a barge canal in accordance with the State Canal Committee's recommendations.

SONS-IN-LAW ARRESTED. Their Father-in-Law III From Drinking From a Bottle They Gave Him.

The Jersey City police are not satisfied with the story told by Joseph D. Simon of 592 Grove street, who was poisoned on Thursday morning about 2 o'clock by drinking what he supposed to be wine. Simon and his two sons-inlaw, John De'giodici and Louis Ricco, had been to Hoboken visiting a sick friend. Thomas

As soon as he had taken a swallow of the liquor he cried out that he was burning. His sons-in-law, who had not been affected by the liquor, hurried him to the Seventh street police station. He was taken to the City Hospital, where it was found that he was suffering from caustic alkaloit colsoning. Simon is will in a critical condition, Delgiodici and Ricco were urrested vesterday and Police Justice Neven committed them without bail.

MR. M'INTERE IS INDIGNANT. Denies That Col. Gardiner Is Responsible

for Delay in Starting Inquiry. Acting District Attorney McIntyre protested vigorously yesterday against the statement made at the City Club on Thursday night by the Rev. Thomas R. Slicer and Deputy Attornev-General Arthur F. Cosby, laying all blame for the delay in beginning the inquiry into the charges against District Attorney Gardiner on

"As Col. Gardiner's substitute I must protest that such statements are untrue," said comments yesterday upon the reports of the Mr. McIntyre, "Yesterday Col. Gardiner received a letter from Buffalo setting Feb. 6 as the day for beginning the inquiry. That is the first information he had of the fixing of a day. No other date has been set, to his knowledge, and so he has not asked to have any postponement. At no time has he sought delay. There is no ground for what Mr. Slicer says is an impression that the defence wanted delay.

"Mr. Cosby's statement that the Attorney General is in full accord with the City Club. I can hardly believe to be true. Attorney-General Davies is hardly the man to openly announce a pre-judgment of any case, and I do not think he has in this instance. The statement made by Mr. Cosby means nothing less. His other statement that whatever requests His other statement that whatever requests for delay, if any, have come from the defence, and not from the prosecution, is positively untrue so far as it seems to represent Col. Gardiner as requesting postponement or other delay.

"As for the charges, there is no specific instance of improper conduct. The District Attorney's office was never in better condition. All cases are practically up to date, all old indictments having been disposed of. In the disposal of some hundreds or even thousands of indictments, there possibly have been errors of judgment, but no corrupt reasons have obtained. The Assistant District Attorneys may err, but they are not dishonest. Anyway, their recommendations regarding indictments are passed upon by the Court of General Sessions.

"I do not think that Col. Gardiner will ask foy delay, even now. His physician, Dr. Robert Safford Newton, has advised that he take a southern trip and he will probably go to Puerto Rico or Hayana, letting Commissioner Wilcox go on taking testimony during his absence. Dr. Newton fells me that his examination showed that the fractured right rib is pressing the spinal column, causing a calious formation. He says that Col. Gardiner does not lowed that the fractured right rib is press-ing the spinal column, causing a callous form-ion. He says that Col. Gardiner does not alize how serious his condition is and that to send him on a trip for a month or six

eks.
Col. Gardiner feels that the City Club charges preposterous. It is hardly likely that he engage other counsel than one of his office assistants."
Mr. McIntyre said that Col. Gardiner was at the Old Guard Iall for a short time on Thursday night, on Dr. Newton's suggestionthat he needed divertisement.

DRUNK FOR A VEIR?

Leonard Testifies That Pullar Drank as

Much as Five Ordinary Drinkers. In the action of Joseph W. Pullar to set aside his conveyance of a \$50,000 interest in the estate of Johanna Pullar against his former lawyer, Alfred R. Page, and others, Justice Bischoff of the Supreme Court decided vesterday to let in evidence the petition and schedules of Page in bankruptcy for the limited purpose of showing his irsolvency. Counsel had be admitted to show, as it was claimed they would, that judgments were obtained by clients with a large canal and freight rate loss than one-half a cent a ton a mile the percentage of expects from this port must increase. The other ports will have business, but New Yorks percentage will increase.

Mr. callaway said he didn't care to comment on the question of increase, it is not not the question of increase, it is not losing any of its profess and solves assets.

Mr. callaway said he didn't care to comment on the question of increase, it is not losing any of its profess will have business, but New York and no stronger from that the port of New York had no stronger from that the Part of New York had no stronger from that the Part of New York had no stronger from that the Part of New York had no stronger from that the Part of New York had no stronger from that the Part of New York had no stronger from that the Part of New York had no stronger from that the Part of New York Central and the natile.

"Regarding the freight differentials accorded to Philadelphia, Baltimore and Newport News, I can only say that they were the outgrowth of connective conditions, which they were expected to modify, and were agreed to on no other basis. In the beginning our road looked apon them as excessive, and we have asked for a further reduction that bear allowed as the profession of the part o would, that judgments were obtained by clients against him. SIX NEW B. R. T. DIRECTORS.

COMPANY TO BE CONTROLLED BY DIRECTORS FROM MANHATTAN.

Retirement of Six Brooklyn Directors at the Annual Meeting Yesterday-Wall Street Interested A Bear Attack That Was Not Successful Nearly All Shares Voted.

Much interest was taken in Wall Street yesterday in the annual meeting of the stock-holders of the Brooklyn Rapid Transit Company, which was held at noon at the company's office, 168 Montague street, Brooklyn, It had been rumored for some time that important interests would be likely to enter the Board of Directors. A larger representation, it was said, would be given to the Vanderbilts and Standard Oil interests would also be represented. Only about twenty stockholders attended the meeting in person, but, amounting to 450,000 shares, 434,505 shares were represented. All of the votes were cast in favor of the following ticket for Directors: C. L. Rossiter, August Belmont, H. H. Porter, E. H. Harriman, A. N. Braty, T. S. Williams, Walter G. Oakman, A. R. Flower, Henry Seibert, J. G. Jenkins, D. H. Valentine, H. C.

Du Val and F. P. Olcott. The new members of the board are Messrs. The new members of the board are Messrs. Belmont, Porter, Harriman, Oakman, Flower and Olcott. The Directors that retired are W. C. Bryant, John J. Keiley, Theodore F. Jackson, Seth L. Keeney, John Englis and C. D. Meneeley. All of the retiring Directors are Brooklyn men, and the company is now controlled by Directors from Manhattan. It was figured out in Wall Street that none of the new Directors could be positively said to represent Standard Oil interests. Mr. Porter is a well-known railroad man and was formerly President of the Omana Railroad. Mr. Oakman is President of the Guaranty Trust Company in which, it is reported, the Mutual Life Insurance Company is interested. He is also identified with the Long Island Railroad. Frederic P. Olcott is President of the Central Trust Company. D. H. Valentine, one of the old Directors, who was reciected, is believed to be the representative of an important interest in the company possibly identified with Standard Oil, Mr. Valentine holds a clerical post in the National City Bank.

On the news of the make-up of the ticket for Directors there was a bear attack on the Stock Exchange upon the price of B. R. T. stock. The raid did not prove particularly successful. There were sales as low as 70%, but the closing sale was made at 71%, which was but one-half a coint lower than the closing price on Thursday.

It may be stated authoritatively that Mr. Belmont, Porter, Harriman, Oakman, Flower

day.

It may be stated authoritatively that Mr. Du Val. as a Director of the Brooklyn Rapid Transit Company, in no way represents the Vanderbilt or New York Central interests, directly or indirectly, all reports to the contrary not hwithstanding. This is Mr. Du Val's third election to the board. He has long been identified with Brooklyn interests through his connection as Director in the Brooklyn Warehouse and Storage Company, the Schermerhorn Bank and the Mechanics' Bank of Brooklyn.

Goett was a manufacturer of women's straw hats when he joined the society on March 4, 1886. He became a member of Tremont Lodge, No. 238. Under the defendant's rules, his wife would receive \$2,000 in case of his death, providing he met such assessments as should be levied on the members. In March, 1898, the defendant amended its constitution as follows: "Any member of the order who shall after

engaging in said osculptions.

Gooding gave up the straw hat business and on Sept. 25 last opened a hotel and liquor saloon at Webster avenue and 175th street. When he wentto pay the assessment for October last, amounting to \$10.2, its aveeplance was refused, an the weight in the had ceased to be a member. He then brought the present proceedings for reinstatement. He contents that the order could adopt no new rule that would tar him from membership, as he had a contract by which, for the payment of certain assessments, he should remain a member till his death, and his widow would get the \$2,000. He says the rule of the order is sought to be enforced retroactively, and so contract and cuts him off from all privileges for the money he has paid.
